

Installing Resource Packs in Activinspire

1. Once you find a resource pack you would like to download from Activinspire click "Download"
2. Click "open"
3. Wait for Activinspire to open (if it isn't open already)
4. Click on "Shared Resources"
5. Wait for it to index (A box will come up, if you don't want to wait, click stop)
6. Once that indexing box disappears, open up Activinspire
7. Click on "View" then "Browsers"
8. Click on the icon for the "Resource Browser" at the top of the window that appears.
9. Click on "Shared Resources" (the icon with the three heads).
10. Most resource packs are downloaded to the "Resource Packs" folder or the "Backgrounds" Folder. At times it will create a new folder so you may need to click around to find the resource pack. It also explains where it is located if you preview the resource pack on Promethean Planet.
11. If a folder has folder contained in it, click on the plus sign next to the folder to open it. Then click on the folder to show the items in the window below. Click and drag the item you would like to use to your flipchart page to use it.
